Disgruntled Former Employee Seeks Office Again

In the Lenoir City Race for Council there is a familiar name on the ballot once again and it's not an incumbent. The name on the ballot is Steve "Shoe" Shoemaker, a former LCUB Employee who has cost the company thousands over his career and was fired for unauthorized work on company time.

It appears Mr. Shoemaker forgot to mention Shoe pg. 2

Steve Shoemaker was fired along with several others for unauthorized work on company time.

Steve Shoemaker cost the ratepayers over \$130k in workers comp cases over ten years before he was fired.

DISTRIBUTED DENIAL OF SERVICE ATTACKS COULD HINDER ACCESS TO VOTING INFORMATION, WOULD NOT PREVENT VOTING

The Federal Bureau of Investigation (FBI) and Cybersecurity and Infrastructure Security Agency (CISA) are issuing this announcement to raise awareness that Distributed Denial of Service (DDoS) attacks on election infrastructure can hinder access to voting information but would not prevent voting.

DDoSs are com-

mon cyber-attacks that can slow or render election-related public-facing websites inaccessible, which could hinder voters' ability to access voting information or voting results. A DDoS attack occurs when attackers flood a public-facing, Internet accessible server with requests, rendering the targeted server slow or inaccessible. This prevents

users from accessing online resources, such as web pages and online accounts, and may disrupt business activities for a period of time.

The public should be aware that if foreign actors or cyber criminals were able to successfully conduct DDoS attacks against

tion a few things and his previous mailers in years past. Mr. Shoemaker is a disabled veteran with 20 years with LCUB. During that time Mr. Shoemaker was fired from the utility for doing unauthorized work on the clock. Mr. Shoemaker also failed to mention that during the last ten years of his 20 years of service at LCUB he filed numerous workers comp cases.

Mr. Shoemaker failed to mention he was FIRED in July 2013 along with several others after several instances where unauthorized work was being performed at the expense of the ratepayers of LCUB. Mr. Shoemaker also failed to mention his five workers comp cases from November 2000 thru January 2010 that again cost the ratepayers of LCUB this time the total cost of the cases was

\$137,399.

There are currently two incumbents, Jennifer Wampler and Eddie Simpson, along with a former member Mike Henline and our current Mayor Tony Aikens who have worked to repair the damage the previous mayor Matt Brookshire did to our city.

We now have more new businesses and more new housing developments than even before all while maintaining one of the lowest tax rates in the country. Lenoir City provides unmatched Police, Fire and Ambulance protection along with an outstanding Street Department and Parks and Recreation Department. We certainly don't need a person who has a grudge against our city and utility board to be in any kind of position of authority especially an elected one.

Agg. Assault

Joshua Underwood, 33, Vale Street Loudon, was charged with Aggravated Assault.

Deputy Rodriguez, Deputy Bengel, and Deputy Mills LCSO, responded to Beals Chapel Road in regards to a physical domestic. Deputy Bengel was first on scene and spoke with the Victim. wood then attacked victim striking him at least five times with a closed fist to the right side of his face. Mr. Underwood fled on foot towards the back of the residence and was not found. Officers observed victim face and noticed he had what appeared to be a broken nose, a large hematoma under his left eye, and was bleeding profusely. election infrastructure, the underlying data and internal systems would remain uncompromised, and anyone eligible to vote would still be able to cast a ballot. In the past, cyber actors have falsely claimed DDoS attacks have compromised the integrity of voting systems in an effort to mislead the public that their attack would prevent a voter from casting a ballot or change votes already cast. The FBI and CISA have no reporting to suggest a DDoS attack has ever prevented a registered

voter from casting a ballot, or compromised the integrity of any ballots cast.

The FBI and CISA have worked closely with election officials across the country to identify alternative channels to disseminate information to voters, such as verified social media accounts, traditional media, and other backup resources. Election officials have multiple safeguards and plans in place to limit the impact and recover from a DDoS incident with minimal disruption to the voting process.

RECOMMENDATIONS
Seek out information

about how to vote and polling place information prior to Election Day.

Seek out information from trustworthy sources, verify who produced the content, and consider their intent.

Rely on state and local government election officials for information about registering to vote, polling locations, voting by mail,

and final election results.

Determine where to vote before Election Day.

Verify the web address of legitimate websites and manually type the address into your browser.

Do a quick search for other reliable sources before sharing a controversial or emotionally charged article, post, see FBI cont. pg. 7
