FOREIGN ACTORS AND CYBERCRIMINALS LIKELY TO SPREAD DISINFORMATION REGARDING 2020 ELECTION RESULTS

The Federal Bureau of Investigation (FBI) and the Cybersecurity and Infrastructure Security Agency (CISA) are issuing this announcement to raise awareness of the potential threat posed by attempts to spread disinformation regarding the results of the 2020 elections. Foreign actors and cybercriminals could create new websites, change

existing websites, and create or share corresponding social media content to spread false information in an attempt to discredit the electoral process and undermine confidence in U.S. democratic institutions. State and local officials typically require several days to weeks to certify elections' final results in order to ensure every legally cast vote

is accurately counted. The increased use of mail-in ballots due to COVID-19 protocols could leave officials with incomplete results on election night. Foreign actors and cybercriminals could exploit the time required to certify and announce elections' results by disseminating

Chase

intoxicated driver on Y-12 property inside Anderson County.

At Approximately 12:01 am, Corporal Zac Frye observed a purple Chevrolet Camaro traveling at an extremely high-rate of speed on US Highway 70 and noticed the vehicle swerving as well. Corporal Frye attempted to stop the suspected drunk driver at which time the driver, later identified as Mary Goddard of Carter's Chapel Road in Lenoir City, fled. Goddard led deputies through Loudon County on Highway 70 and into Roane and Anderson Counties. Goddard eventually found her way onto a gravel access road on Y-12 property. Corpo-

ral Zac Frye, Sergeant Matt Fagiana, and Roane County Deputies, were able to perform a box-in maneuver on Goddard leading to her arrest without injury or incident.

Goddard was charged with Felony Evading by Motor Vehicle, Felony Reckless Endangerment, Reckless Driving, Driving Under the Influence (3rd offense), Driving on a Revoked License for DUI, Possession of Schedule 4 Narcotics, and Possession of Schedule 3 Narcotics. Goddard's Camaro was also seized for operating a vehicle while on a revoked license.

Goddard is being held at the Loudon County Detention Facility pending bond.

U.S. Attorney J. Douglas Overbey Announces Results In Fight Against The Opioid Crisis Two Years After Launch Of Operation S.O.S.

In Knox County, Tennessee, one S.O.S. investigation resulted in the indictment of 29 defendants in a drug trafficking conspiracy in-

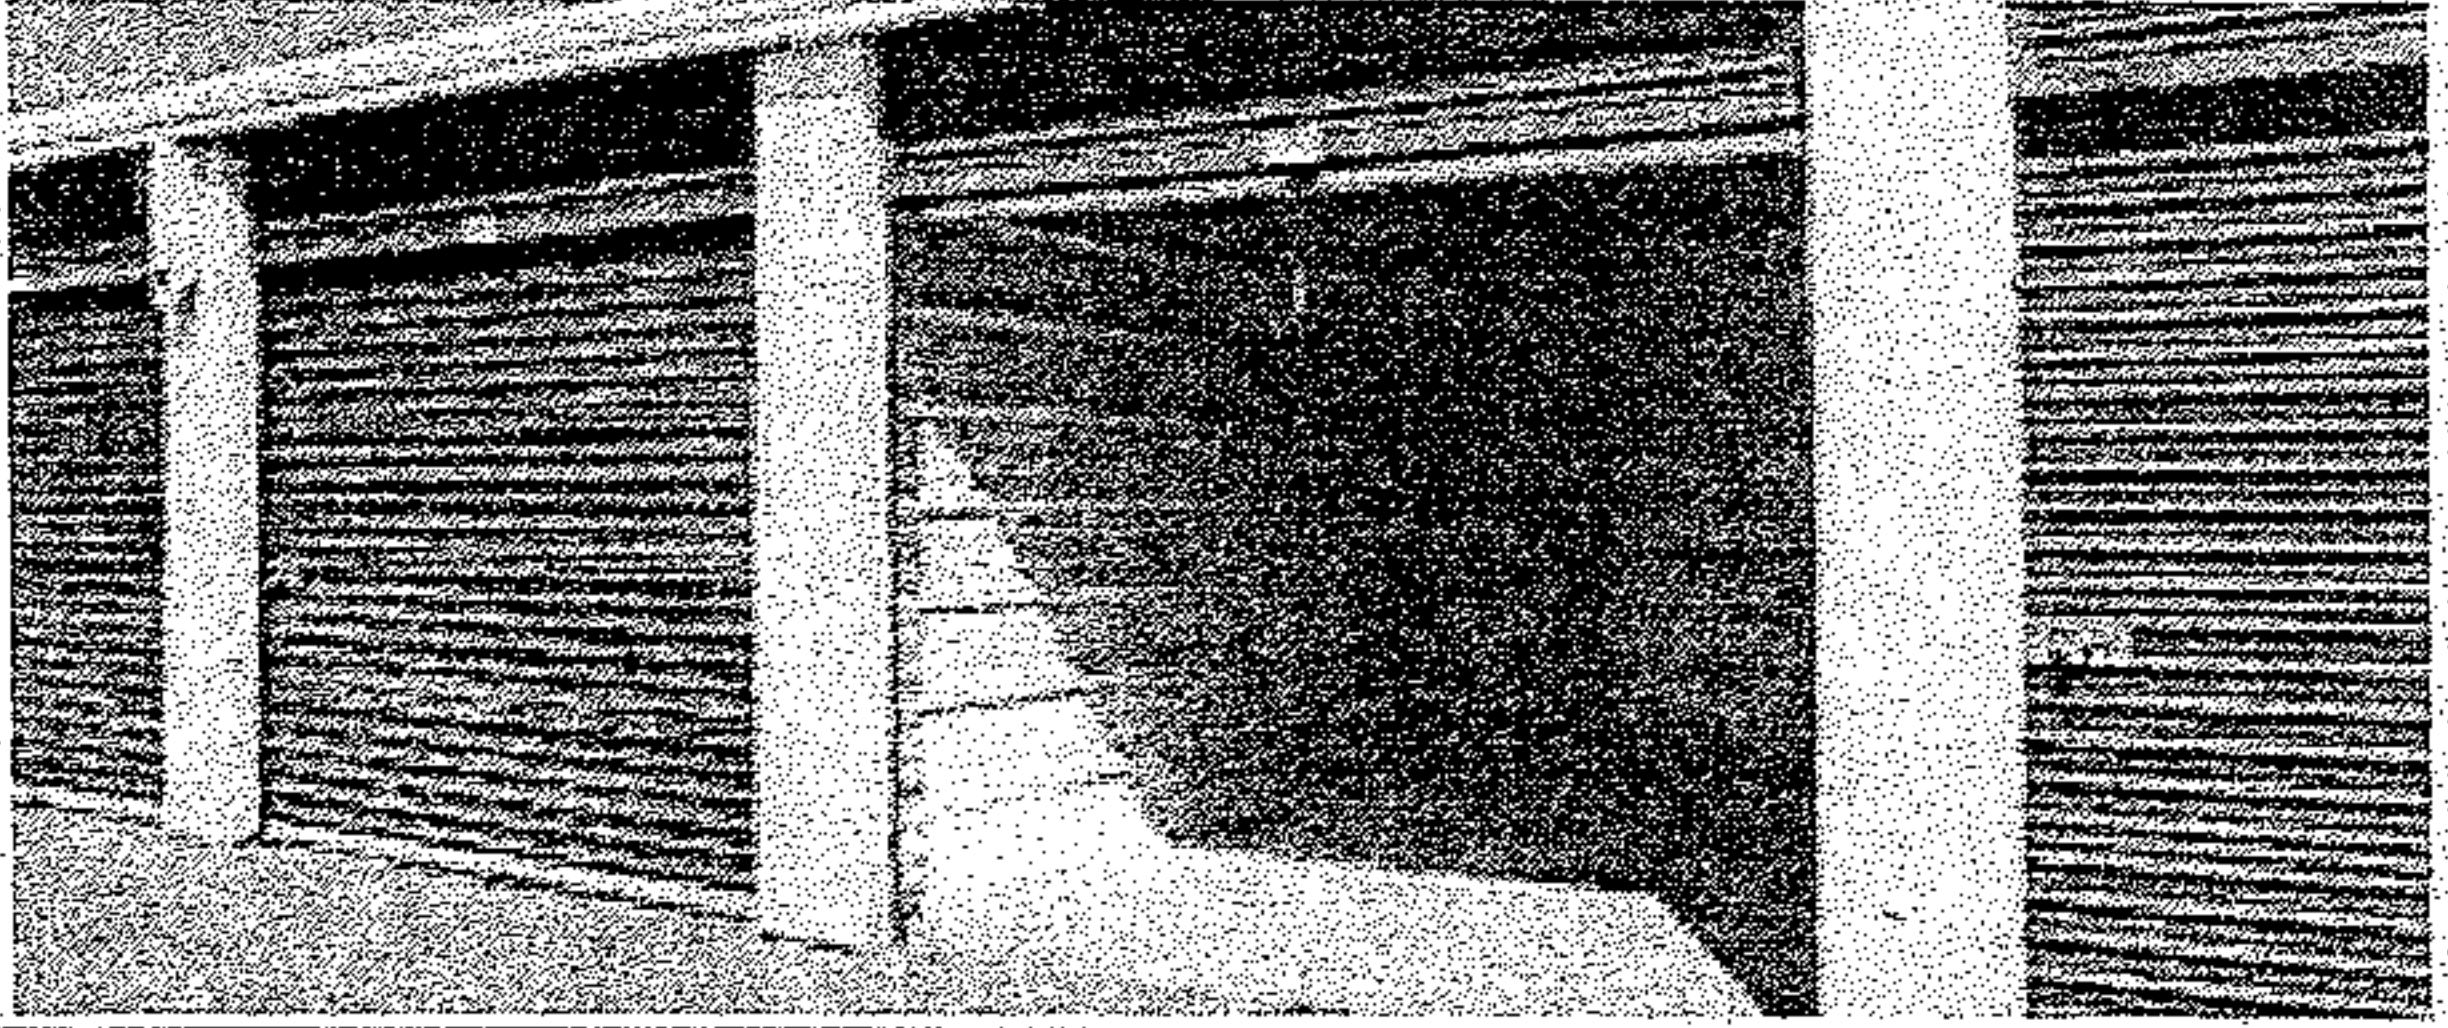

volving the seizure of over 5.5 kilograms of heroin and fentanyl and 11 firearms.

In July 2018, the Department of Justice announced the launch of Operation Synthetic Opioid Surge (S.O.S), a program aimed at reducing the supply of synthetic opioids in 10 high impact areas, including the Eastern District of Tennessee, and identifying wholesale distribution networks and international and domestic suppliers.

disinformation that includes reports of voter suppression, cyberattacks targeting election infrastructure, voter or ballot fraud, and other problems intended to convince the public of the elections' illegitimacy.

The FBI and CISA urge the American public to critically evaluate the sources of the information they consume and to seek out reliable and verified information from trusted sources, such as state and local election officials. The public should also be aware that if foreign actors or cyber criminals were able to successfully change an election-related website, the underlying data and internal systems would remain uncompromised.

RECOMMENDATIONS

Seek out information from trustworthy sources, such as state and local election officials; verify who produced

the content; and consider their intent.

Verify through multiple reliable sources any reports about problems in voting or election results, and consider searching for other reliable sources before sharing such information via social media or other avenues.

For information about final election results, rely on state and local government election officials.

Report potential election crimes—such as disinformation about the manner, time, or place of voting—to the FBI.

If appropriate, make use of in-platform tools offered by social media companies for reporting suspicious posts that appear to be spreading false or inconsistent information about election-related problems or results.

The FBI is responsible for investigating malign foreign influence operations and malicious cyber activity tar-

geting election infrastructure and other U.S. democratic institutions. CISA is responsible for protecting the nation's critical infrastructure from physical and cyber threats. The FBI and CISA provide services and information to uphold the security, integrity, and resiliency of the U.S. electoral processes.

SOS cont. from pg. 4

dose death rates in the country each designated a county where they would focus on prosecuting every readily available case involving fentanyl, fentanyl analogues, and other synthetic opioids, regardless of the drug quantity.

"The Justice Department's commitment to fighting the opioids epidemic is stronger than ever, and we are using every tool in our arsenal to disrupt the supply of these drugs on our streets," said Deputy Attorney General Jeffrey A. Rosen. "Operation SOS has had a significant positive impact on the communities where it is being employed. The Department will continue to build on these successes and work to stop the drug traffickers who so callously wreck lives."

"The mortality rate for opioid related deaths continues to grow. This epidemic destroys families and communities and shatters far too many lives. Law enforcement remains dedicated to disrupting the networks engaging in the trafficking of these synthetic drugs. It requires collaboration and the promotion of effective prevention strategies to meet the challenges posed by illicit opioids. These cases serve as a reminder to those who seek to disrupt and harm our communities by perpetuating opioid abuse will be brought to justice," said U.S. Attorney Overbey.

In the Eastern District of Tennessee, the United States Attorney's Office is currently prosecuting 74 S.O.S. defendants and 10 overdose deaths, including multiple cases arising out of a single investigation involving a drug trafficking organization responsible for trafficking heroin and fentanyl from Michigan to various communities in the Eastern District of Tennessee. 29 defendants have been indicted on various charges, including drug

trafficking conspiracy, overdose death enhancements, money-laundering conspiracy, and various firearms offenses. More than 5.5 kilograms of heroin and/or fentanyl and 11 firearms were seized during the investigation.

Nationally, since 2018, Operation SOS has resulted in approximately 750 defendants being charged in federal court, with 384 of those defendants charged thus far in FY 20. Most importantly, the districts participating in the program have seen a decline in opioid overdoses. From 2017 to 2019, most SOS counties reported a decline of 14% to 24%. One notable success was in the Western District of Pennsylvania, where the opioid overdose rates declined by nearly 45%.

The nine other participating districts and some of their successes are listed below:

The Eastern District of California has reported 60 active Operation S.O.S. investigations. Recently, the USAO charged one sentence-enhanced "death resulting" prosecution. In February 2020, another investigation resulted in the seizure of over 20,000 fentanyl-laced counterfeit oxycodone pills.

The Eastern District of Kentucky reported that an SOS investigation led to a residential search warrant and seizure of more than 1,300 grams of fentanyl, more than 500 grams of methamphetamine, \$15,000 cash, two firearms, and paraphernalia used to traffic narcotics including a device for pressing fentanyl into a brick-like shape.

The District of Maine reported a July 2020 arrest of a defendant on charges of distributing counterfeit fentanyl pills marked as Percocet, in connection with a fatal fentanyl overdose that occurred in May 2020. In addition, a Maine man was sentenced in February 2020 to five years in prison for two counts of possession with intent to distribute fentanyl, in connection with an inci-

dent where the defendant was found in possession of fentanyl less than 24 hours after he was released on a state summons for possession of fentanyl.

The District of New Hampshire reported the October 2019 arrest of a man on a warrant for distributing fentanyl. Manchester Police Detectives executed a search warrant on a local drug-house, where they located approximately 850 grams of methamphetamine and 56 grams of fentanyl, several assault-style rifles, a handgun, ammunition, scales, safes, cash, and cellphones.

The Northern District of Ohio reported a 10-defendant wire case involving a drug trafficking organization (DTO) operating out of Elyria and Sandusky, Ohio. The DTO purchased kilogram quantities of cocaine and oxycodone pills. Co-conspirators would later cook the cocaine and sell it as crack to local dealers in Elyria. During the conspiracy, agents seized approximately 1/2 kilo of cocaine, 100 grams of crack, oxycodone pills, and five firearms.

The Southern District of Ohio reported the arrest of an individual who had previously served a nine-year state prison sentence for drug trafficking. On October 22, 2019, after law enforcement observed activity consistent with drug transactions, including the delivery of what appeared to be a kilogram of narcotics by a courier, members of the FBI Safe Streets Task Force executed a search warrant at a residence in Dayton, Ohio, where they located three firearms, 1,205 grams of methamphetamine, 1,716 grams of fentanyl, 305 grams of heroin, drug processing equipment, and 12 cellular telephones. One of the recovered cellular telephones contained photographs of multiple kilograms of fentanyl and communications with a narcotics supplier.
