**False**

George Boring, 30, Valleyview Drive Maryville, was charged with False Report.

Mr. George Boring called and file a report of a stolen vehicle with the Loudon County Sheriff's Office. He said that his 2015 green Jeep Patriot was left at Highway 70 East Lenoir City, Tennessee. He said that he had left it there for a male to take it to Ohio and was to have it back in 6 hours. During the investigation it was learned that Mr. Boring did accompany the male and another white male only identified as JC to Ohio. On the return trip they stopped at a Kroger

in Georgetown, Kentucky. During which time it is believed that one male did exit the store and leave in the vehicle.

Mr. Boring then did call several people and a female did travel to and pick up Mr. Boring and return him to Tennessee. Mr. Boring is a registered sex offender out of Tennessee.

He did not follow correct protocol by making the proper notifications of his travel plans. It was due to these circumstances that Mr. Boring did file the false stolen report in this county. At this time Mr. Boring is being charged with filing a false report. This did happen in Loudon County.

## Order

different cruise ships. During this time frame, 80 percent of ships were affected by COVID-19. As of July 3, nine of the 49 ships under the No Sail Order have ongoing or resolving outbreaks. According to U.S. Coast Guard data, as of July 10, 2020, there are 67 ships with 14,702 crew onboard.

This Order will remain in effect until the earliest of:

The expiration of the Secretary of Health and Human Services' declaration that COVID-19 constitutes a public health emergency,

The CDC Director rescinds or modifies the order based on specific public health or other considerations, or

September 30, 2020.

On cruise ships, passengers and crew share spaces that are more crowded than most urban settings. Even when only essential crew are on board, ongoing spread of COVID-19 still occurs. If unrestricted cruise ship passenger operations were permitted to resume, passengers and crew on board would be at increased risk of

COVID-19 infection and those that work or travel on cruise ships would place substantial unnecessary risk on healthcare workers, port personnel and federal partners (i.e., Customs and Border Protection and the U.S. Coast Guard), and the communities they return to.

Written comments can be submitted through the Federal Register notice, once published.

CDC will continue to update its guidance and recommendations to specify basic safety standards and public health interventions based on the best scientific evidence available. For more informa-

tion about COVID-19 and cruise ships, please visit [www.cdc.gov/coronavirus/2019-ncov/travelers/cruise-ship/what-cdc-is-doing.html](http://www.cdc.gov/coronavirus/2019-ncov/travelers/cruise-ship/what-cdc-is-doing.html). TN

Tennessee experienced record-high unemployment in April when the jobless number spiked to 15.5% at the height of business closures due to the COVID-19 health emergency. Before the pandemic, the state's previous record-setting unemployment rate was 12.9% in January 1983.

Between May and June, the state's employers added 108,500 nonfarm jobs. The top three sectors for job creation across Tennessee were leisure/hospitality, government, and education and health services.

As the state slowly reopens, employers are creating new job opportunities, but there is still a deficit when comparing year-to-year data. From June 2019 through June 2020, Tennessee lost 154,000 positions. The largest decrease came in

the leisure/hospitality sector, followed by the manufacturing sector, and then the professional/business services sector.

Nationally, seasonally adjusted unemployment dropped by 2.2 percentage points in June, going from 13.3% to 11.1%.

You can access a complete analysis of Tennessee's June unemployment data here.

Tennessee employers are hiring. Job seekers can find more than 190,000 current job openings on the state's workforce development website, [www.Jobs4TN.gov](http://www.Jobs4TN.gov). Tennesseans can also find free assistance with improving job search skills, updating resumes, and job training opportunities on the site.

The state will release unemployment data for each of Tennessee's 95 counties at 1:30 p.m. CT Thursday, July 23, 2020.
