LCHS Principal Orr Dictates Time Change; Weak Leaders Allow It

For the 2020 Graduates of Lenoir City High School it has been an unimaginable journey of indecisiveness and a global Pandemic. First they saw their prom canceled then graduation they had worked so hard for. The school refused to do anything for the prom situation so a parent took the lead and put together an amazing prom at

CDC calls on Americans to wear masks to prevent COVID-19 spread

JAMA editorial reviews latest science, while case study shows masks prevented COVID spread

Americans are increasingly adopting the use of cloth face masks to slow the spread of COVID-19, and the latest science may convince even more to do so.

In an editorial published today in the

Journal of the American Medical Association (JAMA), CDC reviewed the latest science and affirms that cloth face coverings are a critical tool in the fight against COVID-19 that could reduce the spread of the disease, particularly when used universally within communities. There is increasing

evidence that cloth face coverings help prevent people who have COVID-19 from spreading the virus to others.

“We are not defenseless against COVID-19,” said CDC Director Dr. Robert R. Redfield. “Cloth face coverings are one of the most powerful weapons we

Verse of the Day

When Jesus had finished saying these things, the crowds were amazed at his teaching, because he taught as one who had authority, and not as their teachers

of the law.

—Matthew 7:28-29

Wazzup

It appears the Loudon County School Board has gotten into some trouble with this policy they have sent to some parents. Have you heard about it?

DV

James Alsup, 35, Snodderly Road Lenoir City, was charged with Domestic Assault.

Stephen Alsup, 38, Cemetery Road Loudon, was charged with Domestic Assault.

Deputy Mills LCSO, responded to a report of a physical fight at Cemetery Road. Upon arrival, Deputy was met by Mr. James Alsup and Mr. Steven Alsup. Both James and Steven were bloody and had minor injuries. A male and female were on scene and witnessed the fight. James informed Deputy that Steven got into a verbal argument with his mother,

and he tried to separate them and at that time it became physical. When Steven was questioned about the cause of his injuries, he stated, "I fell." Complainant informed Deputy that James was the aggressor and came into the kitchen looking for a fight and initiated the contact. Complainant was unable to give me a good account as to what happened due to her being transported to by EMS to Fort Loudon for chest pains. Complainant had various scratches and bruises on his upper body. Steven had various scratches and bruises as well as a serious scratch on his thumb. Deputy was able to determine that a physical fight did occur in the kitchen. Due to the injuries on the scene and the inability to determine a primary aggressor Deputy put Mr. James and Steven Alsup in handcuffs and arrested them for domestic assault. They were treated by EMS for their injuries and cleared before transporting them to Loudon County Detention Facility. All of the above occurred in Loudon County, TN.

LCHS

an outside venue (The Venue at Lenoir City) for the students. An amazing night it was indeed enjoyed to its fullest.

Now was time for graduation and the school had announced the time and date the graduation was to be held and that it would be on the football field instead on inside the building. The time was set at 7pm on Friday and that allowed both working parents and students the opportunity to attend and even have family from out of town in. Just 9 days before the event the time was changed to 10am and at that time it was unknown who or why the time was changed and at such short notice so a campaign began to find out who, what, when, where and why.

After phone calls and information received from parents and other sources it has been determined that Mr. Chip Orr, Principal of LCHS made the decision to change the time to 10am, sent out the message and some mystery executive committee stood behind his decision. Then the Director, Mrs. Barker was contacted and then the board was informed of the decision. Ms. Barker is standing behind Mr. Orr and his lone decision. Members of the school board were contacted by other individuals and the only one who commented was Chairman Rick Chadwick who reportedly didn't

care about the time change or that Mr. Orr had done it without the approval or knowledge of the board.

The School Board Office also stated Mr. Orr can make changes of this nature without anyones approval or knowledge.

Many parents, friends, family and even some students who work during that time are outraged and have called and emailed to no avail.

Many may remember graduation last year before the pandemic, the people who were transported by ambulance or had to be taken to their cars due to the heat at 10am outside. At that time there was no water free or otherwise provided by the school which contributed to those being in the heat having problems. There has been no comment or plan shared by the school system about any plans for the water at the graduation to prevent what happened last year so we are sure Mr. Orr has a plan.

A precedent has been set here that basically means the Lenoir City School Board is a pointless entity. They have allowed an employee to change a time for an event already approved and without anyones knowledge or permission. Given this information it basically means Mr. Orr sets the policy, times, and any other thing he decides and then dictates it to the 'elected' ones along with his 'boss' the director of schools.

have to slow and stop the spread of the virus – particularly when used universally within a community setting. All Americans have a responsibility to protect themselves, their families, and their communities.”

This review included two case studies out today, one from JAMA, showing that adherence to universal masking policies reduced SARS-CoV-2 transmission within a Boston hospital system, and one from CDC’s Morbidity and Mortality Weekly Report (MMWR), showing that wearing a mask prevented the spread of infection from two hair stylists to their customers in Missouri.

Additional data in today’s MMWR showed that immediately after the White House Coronavirus Task Force and CDC advised Americans to wear cloth face coverings when leaving home, the proportion of U.S. adults who chose to do so increased, with 3 in 4 reporting they had adopted the recommendation in a national internet survey.

The results of the Missouri case study provide further evidence on the benefits of wearing a cloth face cov-

ering. The investigation focused on two hair stylists — infected with and having symptoms of COVID-19 — whose salon policy followed a local ordinance requiring cloth face coverings for all employees and patrons. The investigators found that none of

the stylists’ 139 clients or secondary contacts became ill, and all 67 clients who volunteered to be tested showed no sign of infection.

The finding adds to a growing body of evidence that cloth face coverings provide source control – that is, they help prevent the person wearing the mask from spreading COVID-19 to others. The main protection individuals gain from masking occurs when others in their communities also wear face coverings.

COVID-19 prevention in a Missouri hair salon

When two stylists at a Missouri hair salon tested positive for the virus that causes COVID-19, researchers from CoxHealth hospitals, Washington University, the University of Kansas, and the Springfield-Greene County Health Department worked together to trace contacts, investigate the cases, and publish their findings in the MMWR.

One of the stylists developed respiratory symptoms but continued to see clients for eight days. The other, who apparently became infected from her

CDC ctd. from pg. 4

co-worker, also developed respiratory symptoms and continued to see clients for four days.

The salon in which they worked had a policy requiring both stylists and their clients to wear face coverings, consistent with the local government ordinance. Both stylists wore double-layered cloth face coverings or surgical masks when seeing clients. The median appointment time was 15 minutes and ranged from 15 to 45 minutes. More than 98% of clients wore a face covering—47% wore cloth face coverings, 46% wore surgical masks, and about 5% wore N-95 respirators.

When customers were asked whether they had been ill with any respiratory symptoms in the 90 days preceding their appointment, 87 (84%) reported that they had not. None of the interviewed customers developed

symptoms of illness. Among 67 (48%) customers who volunteered to be tested, all 67 tested negative for the virus that causes COVID-19. Several family members of one of the stylist's subsequently developed symptoms and received a diagnosis of COVID-19.

Survey: Acceptance of face-mask guidance increased

CDC analyzed data from an internet survey of a national sample of 503 adults during April 7-9 and found that about 62% said they would follow the newly announced recommendations to wear a face mask when outside the home. A repeat survey during May 11-13 showed that the percentage of adults endorsing face mask wearing increased to more than 76%.

The increase was driven largely by a significant jump in approval by white, non-Hispanic adults, from 54% to 75%. Approval among Black, non-Hispanic adults went up from 74% to 82%, and remained sta-

ble among Hispanic/Latino adults at 76% and 77%.

There was also a large increase in face-mask approval among respondents in the Midwest, from 44% to 74%. Approval was greatest in the Northeast, going from 77% to 87%.
