Labcorp To Begin Monkeypox Testing Today, Doubling Nationwide Testing Capacity

Starting today, Labcorp will begin testing for monkeypox using CDC's orthopoxvirus test (which detects all non-smallpox related orthopoxviruses, including monkeypox).

"The ability of commercial labs to test for monkeypox is a key pillar in our comprehensive strategy to combat this disease," said CDC Director Rochelle Walensky, M.D., M.P.H. "This will not only increase testing capacity but

will make it more convenient for providers and patients to access tests by using existing provider-to-lab relationships."

Labcorp will offer this testing at its largest facility in the United States and will be able to accept specimens from anywhere in the country. Labcorp expects to be able to perform up to 10,000 tests per week, which will double the current capacity provided through CDC's Labo-

ratory Response Network (LRN), which itself has rapidly expanded testing capacity over the last seven weeks.

On June 22, HHS announced that five commercial laboratory companies would soon begin offering monkeypox testing. Since then, CDC shipped the tests to the laboratories and their employees have

hicle (gear shifter).

Based on my training and experience the small bag that Officer visually noticed near the gear shifter of the vehicle is commonly associated with narcotic usage. Officer requested for Deputy Gray and his K9 partner Kora to respond to my location to conduct an open-air sniff of the vehicle. While conducting business in regards to writ-

ing a citation, Deputy Gray and K9 Kora responded and conducted an open-air sniff of the exterior of the vehicle.

Officer was notified by Deputy Gray that K9 Kora positively alerted to an odor of narcotics coming from inside of the vehicle. A probable cause search of the vehicle was conducted. Located inside of the purse that belonged to SCHOPFER which was in the back seat contained (1.49 Grams)

of a crystal-like substance that tested positive for methamphetamine through TRU NARC, (2) hypodermic needles, (3) empty "dime bags" that matched the one visually located during the initial traffic stop, (1) cut straw, (1) digital scale and (1) spoon that contained narcotic residue. SCHOPFER was placed under arrest and transported to the Loudon County Jail.

Burglary

Walter Stachowicz, 40, Homeless, was charged with Burglary, and Criminal Court Capias.

Deputies were dispatched to a possible Burglary. Upon arrival, Deputy K. Redmond LCSO, made contact with (Victim), he showed Deputy where his garage was located and told him that his motion light had turned on and he could hear noises. The outside garage doors were locked from the inside so victim went inside to unlock them. When victim went inside, Walter

Stachowicz (Offender) came around the corner from the bottom of the house asking him to announce myself. Deputy then announced himself and asked Walter what he was doing here, Walter said that he had been living there in the basement for the past six or seven months, possibly since January while doing work around the yard and house for victim and his wife. Victim said Walter was hired to paint and to do other tasks but was never allowed to stay in the residence and was unaware that he has been stay-

ing in the basement. Alfonso said he has only known Walter for approximately three or four weeks when he began work. Walter was taken into custody and transported to the Loudon County Justice Center without further incident. All events occurred in Loudon County.

CDC

been trained on their administration, among other steps.

Anyone with a rash that looks like monkeypox should talk to their healthcare provider about whether or not they need to get tested, even if they don't think they had contact with someone who has monkeypox. Healthcare providers, nationwide, can order the orthopoxvirus test from Labcorp just as they normally would order other tests. The public will not be able to go to a Labcorp lab and submit a specimen. Labcorp will use electronic laboratory reporting (ELR)

to report results to jurisdictions as outlined in the CDC reporting guidance.

CDC anticipates additional commercial laboratories will come online and monkeypox testing capacity will continue to increase throughout the month of July. Healthcare providers can access information on Labcorp's test at www.labcorp.com/monkeypox*. The latest CDC information on monkeypox is available at www.cdc.gov/monkeypox.

Allen Beets, 57, Allison Lane Lenoir City, was charged with Resisting Arrest, Open Container, DUI, and Violation of Implied Consent.

Officer Parmer LCSO, was on patrol when he observed a blue Nissan Frontier at the intersection of Hwy 321 N and Mcghee Blvd. The vehicle was in the middle of the intersection with the vehicle in reverse. The light turned green and the vehicle turned left onto Mcghee Blvd, while turning, the vehicle drove between the two lanes on Mcghee Blvd. The vehicle then passed over the fog line twice while unable to maintain a consistent speed.

Officer initiated a stop on the vehicle at the Kenjo on McGhee Blvd. Officer approached the vehicle and could smell a strong odor of alcoholic beverage permeating from the passenger compartment. Officer made contact with the driver, later identified as 57 year old Allen Beets, who had slurred speech and watery, blood-shot eyes. While speaking with Mr. Beets, Officer observed a BudLight can in the front seat cupholder, which later found to be approximately half-full and cold to the touch. Officer Parmer and Officer Law requested that Mr. Beets step out of the vehicle to which he denied multiple times.

Officer Law and Parmer were forced to extract Mr. Beets from the vehicle and place him in custody; Mr. Beets refused medical treatment after the incident. Mr. Beets refused to preform SFST's and did not consent to give a breath or blood sample to determine BAC. Mr. Beets was then transported to Loudon County Jail without any further incident.

The above did occur in Lenoir City, Loudon County, Tennessee.

You may need to knock on their door, wake them up, and say, "Hey, what about everybody else?" Try not to whine as you deliver this message. A desperate-sounding attitude will get you nowhere. Be friendly and jovial in your approach and the world will be at your feet.

Virgo 8/23-9/22

This is a day to have fun, so let loose and be free to express yourself in the best way you see fit. Realize how much power you have in your jovial nature.

Aries 3/21-4/19

You have an incredibly strong influence on others just by virtue of the fact of your fun-loving, peaceful, and harmonious nature, Aries. Your natural charm will take you any place you want to go today, so feel free to use it at will. Accentuate the positive and make sure you're walking on the sunny side of the street. Whistle as you walk down the sidewalk and get out into the light.

Taurus 4/20-5/20

Put your aggressions away and laugh a little today, Taurus. Transfer your intensity from a hard, caustic energy to a more lighthearted and fun-loving one. You'll find that this type of attitude will take you far. Little things may crop up that disrupt your daily routine, but you'll find that a warm smile is all you need to defuse the bomb.

Gemini 5/21-6/20

It's a terrific day for you, Gemini, one in which you'll find that your jovial approach to every situation is just what the doctor ordered. Spend time with children and enjoy their magical world. Spread your love and affection to the people around you. Make sure that the corners of people's mouths are turning up instead of down. A friendly attitude will take you far.
