Remains

The remains appear to be "very old archeological artifacts," according to the Loudon County Sheriff's Office.

According to Sheriff Jimmy Davis, Deputies with the Loudon County Sheriff's Office are investigating human remains that were found on a Martel Road, Lenoir City property. The home is located in the 2800 block of Martel Road. The remains were found in an old collapsed shed on the property, Davis said.

"It appears at this time that the remains are very old archeological artifacts that were kept from the previous owner," Davis said.

Further according to Sheriff Jimmy Davis, the discovery happened after the property owners started doing some remodeling work and began clearing old buildings. The owners found an old shed filled with antiques and

decided to send out an online invitation for people to buy some of the items that were in there.

Davis reported a Blount County couple took home a bucket from the shed, and when they got home opened it and discovered it was filled with what appeared to be a human jawbone, several teeth, some pottery and some seashells. The couple called the Blount County Sheriff's Office, who notified LCSO.

Deputies sent the jawbone and teeth to the University of Tennessee for investigation, who told them it appeared to be human remains.

LCSO arrived at the home on Martel Road and got the owner's consent to search the property. Investigators said they searched underneath the shed debris and found an additional piece of a jaw bone on an exposed piece of floor. Crews began taking apart the collapsed wood shed to conduct a thorough search.

Davis said they do not suspect foul play at the moment.

Investigators are unsure how old the bones are and are trying to gather some history on the previous property owners to figure out where they came from.

"All we know is that they are human and we're just gonna do some more checking and check in with the guys with UT and see what they got," Davis said.

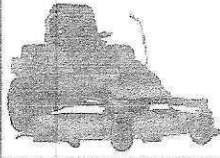

The sheriff said the shed

had been pushed over about a week ago.

"An excavation is a good way to put it. We're going through kind of like an archeological dig, where we have two trained from the FBI Forensic Academy. We have a crime scene team we're putting together," Davis said. "It's also used as a teaching tool, kind of showing how we do it."

Lee

local hospital for treatment related to a fentanyl overdose; one inmate died. The Tennessee Bureau of Investigation (TBI) and TDOC investigators responded to the facility to investigate the incident. During the investigation, they learned that Lee, an inmate at NECX, used a contraband cell phone to communicate with a co-defendant, Debra Kathleen Vekasi. Vekasi would acquire narcotics and transport them to Carter County. She would hide the narcotics in tennis balls, which were thrown over a security fence and into the recreation yard. Inmates would collect the narcotics-filled tennis balls for Lee, who would distribute the drugs throughout NECX. On May 15, 2020, the narcotics that Vekasi provided to the inmate in NECX included 30 fake oxycodone pills that contained fentanyl. A search of Vekasi's cell phone included text messages between her and Lee that discussed the receipt and distribution of narcotics, as well as the receipt and payment of money for the narcotics.

On May 25, 2023, Vekasi, 70, of Knoxville, Tennessee, who was also convicted at trial, was sentenced by the Honorable Clifton Corker to time served (28 months) and three years of supervised release, for her role in the con-

spiracy.

The criminal indictment was the result of an investigation by the TBI and TDOC's Office of Inspection and Compliance. The investigation was led by Special Agent Jason Roark of TBI.

Assistant United States Attorneys B. Todd Martin and Mac D. Heavener represented the United States.

This case is part of Project Safe Neighborhoods (PSN), a program bringing together all levels of law enforcement and the communities they serve to reduce violent crime and gun violence, and to make our neighborhoods safer for everyone. On May 26, 2021, the Department launched a violent crime reduction strategy strengthening PSN based on these core principles: fostering trust and legitimacy in our communities, supporting community-based organizations that help prevent violence from occurring in the first place, setting focused and strategic enforcement priorities, and measuring the results.
